SPOTLIGHT
Presentation Remote

PRESENT LIKE NEVER BEFORE

Spotlight allows you to simply navigate slides and interact with on-screen content from up to 30 meters/100 feet away. The customisable timer sends vibration alerts directly to hand – and the advanced pointer system allows you to highlight and magnify areas of focus in pixel-perfect detail. Add to that gesture-commanded scrolling, panning, and volume control and you can be sure to crush every presentation.

HIGHLIGHT AND MAGNIFY ON SCREEN

Enlarge areas of focus without loss of image quality. Go beyond traditional laser pointing. Visible to audience in-person and via video conference. Draw attention to certain elements of your presentation in a compelling way.

Magnify

Highlight

SMART TIME MANAGEMENT

Spotlight reminds you when it's time to wrap up. The presentation remote vibrates five minutes before the end of your presentation and again when your time is fully up. Track presenting time and customise vibration alerts in the Logitech Presentation App.

MOUSE-LIKE CURSOR CONTROL

Use the on-screen cursor to play videos, open links, and enjoy a range of rich content interaction. Interact with your presentation content without using a mouse or trackpad.
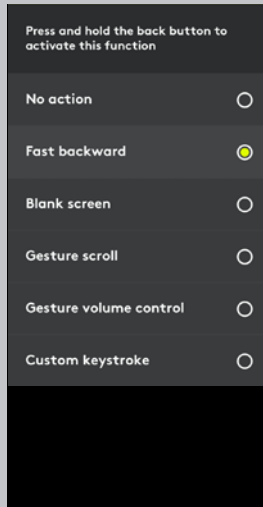

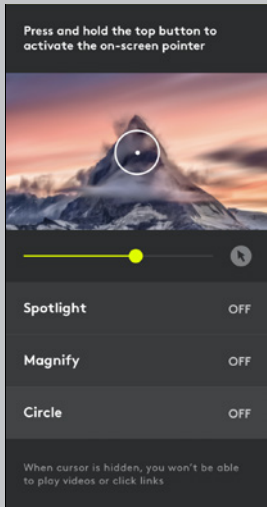

30-METER RANGE

Move and present freely from up to 30 meters (100 ft).

QUICK RECHARGING

Quick charge in one minute for three hours of use. Stay charged for the length of your presentation, and operate with confidence in even the largest rooms.

logitech®

Press and hold the top button to activate the on-screen pointer

Spotlight — OFF
Magnify — OFF
Circle — OFF

When cursor is hidden, you won't be able to play videos or click links

Press and hold the back button to activate this function

- No action ○
- Fast backward ◉
- Blank screen ○
- Gesture scroll ○
- Gesture volume control ○
- Custom keystroke ○

SOFTWARE

Logitech Presentation app is radically simple and advanced when needed. It enables you to set the timer and customise the actions on the top, next and back button.

HOW TO GET STARTED WITH SPOTLIGHT

Plug in the charging cable and charge the product before the first use. Make sure you have admin rights on your computer to install the Software.

1. Download the Software at logitech.com/Spotlight
2. Install Software
3. Follow the Onboarding
4. Customise your spotlight in the app

ADVANCED POINTER SYSTEM

Set your preferred pointer mode within the Logitech Presentation app. Use magnify to visually zoom on areas of focus. Use highlight to activate a circular vignette that leaves the surrounding area in shade.

CUSTOM CONTROLS

Choose from a range of custom controls to suit each presentation. Use the app to configure Spotlight's next and back buttons for blanking the screen, gesture-controlled scrolling, volume adjustment, and more.
